TRADE LIST

OF THE

MONMOUTH NURSERY

J. T. LOVETT

Telephone 2. LITTLE SILVER, N. J.

Berry plants cannot be sent in less quantities than 50 of a variety at 100 rates nor less than 500 of a variety at 1000 rates. Other stock will be supplied 25 of a variety at 100 and 250 of a variety at 1000 rates, respectively.

All goods are carefully packed in boxes or bales, for which I make a charge sufficient to cover cost of material used. Please state whether goods are to be shipped by freight or express and name route. After delivering to the forwarders all articles are entirely at the risk of the purchaser; and if any loss or delay occurs, the forwarders must alone be held responsible. All goods are delivered to Express Office or Freight Depot at Little Silver or Red Bank free of cartage. Parties desiring stock shipped by Express C. O. D. will please remit one-quarter the amount of their purchase when ordering.

Claims, if any, must be made within fifteen days after receipt of stock.

Monmouth Nursery is located one mile from Little Silver Depot, two miles from Red Bank, thirty miles from New York City, and five miles from Long Branch. To reach it from NEW YORK take the Central Railroad of New Jersey (foot of Liberty street or Twenty-third street), or the Pennsylvania Railroad (Cortlandt Street, or 32d Street and Seventh Ave). From PHILADELPHIA take the Pennsylvania Railroad, (Broad and Market streets), or the Philadelphia and Reading Railroad, Bound Brook Route. In all cases get tickets to LITTLE SILVER; good on either road.

TERMS CASH.

New Jersey State Board of Agriculture.

No. 85—1912.

Office of the State Entomologist,
New Brunswick, N. J., September 23, 1912.

This is to Certify, That I have this 23d day of September, 1912, inspected the general nursery stock growing on the Monmouth Nurseries, J. T. Lovett, Proprietor, at Little Silver, in Monmouth County, New Jersey, and have found the same apparently free from San Jose scale and other dangerously injurious insect pests; also that the examined stock seemed healthy.

I Further Certify, That the nursery has a properly constructed house, 16.10x6.8 feet, for fumigating with hydrocyanic acid gas, upon which I have marked the quantity of cyanide of potassium required for an effective charge.

This certificate expires June 1st, 1913, and covers only stock actually on the nurseries when examined. HARRY B. WEISE, Acting State Entomologist.

HARDY PERENNIAL PLANTS.

Hardy Perennial or Hardy Herbaceous Plants are a leading feature of the Monmouth Nursery.

Many Florists and Nurserymen who have a local trade, reap a double profit from Hardy Perennials by making a home planting; a profit from the flowers they produce and another from sales of plants. By having Hardy Perennials in flower to show their patrons, sales are often made that otherwise could not be effected and the increase in the plants themselves is frequently many fold.

I aim to grow superior plants of the finest varieties—not to produce in an indifferent way a long and cumbersome list of species and varieties. Only by pursuing this policy am I enabled to sell fine stock at the prices quoted.

Where no size is stated, they are first class field grown stuff.
Thousand rate of any variety given upon application.
